 **FINIGLAS**
FIRST CLASS CURVED GLASS.

Foreword

Curved glass is widely used today, not only in architecture, but also in the furniture industry and in interior design. The **distinctive technologies** we use and our **special** know-how combine to ensure that we meet our customers' highest demands, fulfilling their expectations with **precision** and working closely with them throughout the production process. **Individualized forms** and designs are no problem for us. We are constantly developing our portfolio and can currently produce even the most difficult geometries with **maximum dimensions of 3210 mm x 6000 mm**. One of our strengths is the free choice of coating that we offer, and our readiness to work with you to find the optimal **coating solution** for your special project.

Hermann Schüller, Managing Director, FINIGLAS Veredelungs GmbH

First Class Curved Glass

Putting products into shape

We can do it:

The **limitations** of our products are determined **only by physics**. We offer glazings for a very wide range of applications from our portfolio, for example, **façades**, parapets and stair-rails for high-quality architectural solutions, or **elegant interior products** for shower doors, stair-rails or lifts, and overhead glazings. Unusual **special forms** and **XXL formats** with toughened glass and laminated safety glass are our speciality. Using our **innovative techniques** we can produce **cylindrical**, spherical and aspherical, **conical** and parabolic curved forms.

„Finiglas is living innovation“

André Wachsmann; Sales Manager Curved Glass

Competent dialogue

We put your ideas into practice

Do you need **quick and competent** advice for your project? You can **count on** our **experience** and commitment in the world of glazing. We will be delighted to talk to you about the technical solutions and possibilities that Finiglas offers its customers. Our values are emphasized by our motto, „**First Class Curved Glass**“. Take up our invitation to visit us and get an impression of our portfolio **at first hand**. Within a minimal time frame, our team will present you with a **transparent** and detailed quotation that leaves nothing to be desired. Our **R&D, Production, Sales** and **Logistics** departments work together as a well-rehearsed team that you can rely on.

„Finiglas brings first-class
form to glass architecture“

Dr.-Ing. Frank Ensslen; Head of Semcoglas Applications Engineering

„For us, being first-class,
means never being satisfied
with what we have achieved“

Stephan Geertsen; Costing

„Our high demands on
quality pay off“

Michael Hellmann, Head of Order Centre

Punctual delivery

We deliver right on time

Customers ordering from us will receive: The **highest quality** materials in the correct quantity, and at the agreed costs. Delivery at the **right place and the right time**. Our Logistics department takes responsibility for all of the above. Ordering with us is simple and easy, thanks to our combination of detailed quotation preparation, reliable advice, efficient production and reliably punctual delivery, whether you are in Amsterdam or Hanoi. Our international experience makes us a **global player** when it comes to curved glass.
